For projects that would fall under the Institutional Review Board’s (Human Subjects Committee’s) Expedited, Exempt categories, or Not Human Research determination. Examples of studies that would be proposed using the Abbreviated application form include retrospective chart reviews, surveys, basic science research using previously collected de-identified samples, etc. Please see iRIS, Operating Procedures, HRP-319 and HRP-320 for the Exempt and Expedited review categories.

For research projects that: (1) propose to use funds from any institutional source including Departmental Funds, PI unrestricted funds, etc. or projects will be conducted without funds; (2) prospective studies proposing to conduct Human Subjects research that is neither Exempt nor Expedited; (3) studies that include animal research.
