The CTSI Integrating Special Populations Program increases the quantity and quality of research in children, older adults, and populations affected by health disparities at the UCLA CTSI partner institutions: UCLA Westwood, LA BioMed at Harbor-UCLA, Cedars-Sinai, and Charles R. Drew University.

Eligibility: Postdoctoral researchers and faculty at any level doing research relevant to special populations (i.e., children, older adults, health disparities) are encouraged to utilize the following free ISP consultation services:

### Internal Pre-Submission Grant Reviews
Approximately 4-6 weeks before submission deadlines, our experienced faculty offer:
- independent review of PCORI, NIH U01, K- or R-level grant proposals
- in-person feedback in a mock study section
- written and oral critiques plus suggestions for improving the grant

### Career Consultations
An interdisciplinary team of senior faculty members provide one-time, or ongoing career advice. Interested faculty submit a CV and responses to key questions about their career trajectories. Discussion items can include:
- potential sources of funding
- collaboration opportunities
- suggestions for research content direction
- support with promotion
- career transitions
- strategies for achieving academic success

Consultations are especially useful to faculty at a career crossroads, e.g., near the end of a funding cycle, deciding between different employment opportunities.

### Project-Specific Consultations
Senior faculty provide concrete, one-time project-specific advice to:
- conceptualize projects
- identify key collaborations
- identify potential grant sources
- problem-solve
- get advice on tasks such as grant-writing, IRB submissions, hiring staff, and study recruitment
- support with promotion
- career transitions
- strategies for achieving academic success

If interested, or know a mentee who may benefit, please contact:
Nathalie Vizueta
CTSI Special Populations Program Manager

## Biostatistics, Epidemiology and Research Design

Provides biostatistical and data management support, grant preparation, education and bioinformatics/computational biology services to CTSI research teams. **Staff contact:** domstat@mednet.ucla.edu

## Community Engagement and Research Program

Develops, implements, and refines models of community engagement and facilitates research collaborations with community partners. **Staff contact:** Stefanie Vassar, svassar@mednet.ucla.edu

## Informatics Program

Provides databases, tools, resources and infrastructure for the acquisition, storage and analysis of data. **Staff contact:** Marianne Zachariah, mzachariah@mednet.ucla.edu

## Integrating Special Populations

Focuses on catalyzing and strengthening research in three special groups: children, older adults, and groups affected by health disparities. **Staff contact:** Nathalie Vizueta, nvizueta@mednet.ucla.edu

## Network Resources

Consists of two units: 1) The Clinical Research Acceleration Unit (CRAU) interacts with the CTSA Network Trial Innovation Centers (TICs) to ensure rapid study start-up of clinical trials and assist investigators with high priority studies; 2) The Recruitment Unit has been established to interact with Research Innovation Centers (RICs) to ensure rapid subject recruitment to clinical trials. **CRAU contact:** Hazel Xavier, hxavier@mednet.ucla.edu, **Recruitment Unit contact:** Marianne Zachariah, mzachariah@mednet.ucla.edu

## Participant and Clinical Interactions

Provides scientific review and data and safety oversight. **Helen Williams-Bayne,** hwbayne@mednet.ucla.edu (UCLA)  **Holly Johnson,** hollyjohnson@cdrew.edu (Charles Drew)  **Debby Peterson,** debby.peterson@cshs.org (Cedars-Sinai)  **Raquel Gutierrez,** gutierrez@labiomed.org (Harbor/LA BioMed)

## Pilot, Translational and Clinical Studies Program

Provides seed funding for collaborative research, team-building activities and development of novel technologies and approaches. **Staff contact:** Deborah Herman, dkherman@mednet.ucla.edu

## Population Health

Equips health agency personnel with skills to introduce and sustain critical translational science methods. **Staff contact:** Moira Inkelas, minkelas@mednet.ucla.edu

## Precision Health

Mobilizes and integrates genomic data with clinical data for translational research that involves genetics, genomics, patient phenotypes, and biomaterials. **Staff contact:** Clara Lajonchere, clajonchere@mednet.ucla.edu

## Regulatory Knowledge and Support

Ensures that our research is in full regulatory compliance and meets the highest quality assurance standards. **Staff contact:** Terra Hughes, tnhughes@mednet.ucla.edu

## Team Science

Develops new theoretical and evidence-based tools to improve, assess, and evaluate the capacity of interdisciplinary and translational science teams to effectively combine team members’ diverse expertise. **Staff contact:** Deborah Herman, dkherman@mednet.ucla.edu

## Workforce Development Program

Houses most of our education and training activities, including KL2 and TL1 awards for mentored research. **Staff contact:** Lisa Chan, lchan@mednet.ucla.edu
